

Natural Niseko 4 days / 3 nights

From **HKD7,090**

Valid for departure from **01 DEC – 15 APR 13'**

Niseko, found on the island of Hokkaido is truly a year round destination for both Japanese and foreigners. Famous in Japan and around the world for her exceptional powder snow, originally this area was an *onsen* (natural hot spa) resort hardly known to the outside world. A wide range of cuisine and fresh produce can be had at this wonderful destination.

Ski season begins early in December and ends in late April, during this time the resort is beautifully dressed in snow allowing skiers and snowboarders to enjoy the grounds. Activities available include snowmobiling, kids snow parks, tobogganing and snowshoeing to name a few.

Summer vacations can be enjoyed from June through September, the perfect base to experience the temperate *South Western Hokkaido* area. During the summer the weather is ideal for cycling, rafting, hiking, golf and much more.

Experience the unique Japanese culture and mix of international influences over 4 days and 3 nights right here at one of the fastest growing ski resorts in the world. Choose an apartment or your own personal house to enjoy during the trip, all located near the best sights and sounds of the area.
